

Tasty glass, beaker and plate

Tasty is a range of products designed to facilitate eating and drinking. The lightweight glass can be lifted by holding on to the thick neck. The beaker offers various gripping possibilities. The scoop plate with its raised edge facilitates eating with one hand. These products are dishwasher-safe, but we recommend that you wash them by hand to retain their shiny finish.

Tasty glass

The glass has a thick neck to facilitate safe lifting. The lightness of this glass, plus the fact that the bowl can rest against the top of the hand, results in the need for less “gripping force” when lifted.

Description **Item no.**
Tasty glass 8040 4001

Material: Polycarbonate
Weight: 75 g
Capacity: 3 dl
Care: Dishwasher-safe
Will retain its shiny finish
if washed by hand.
Design: Ergonomidesign

Tasty beaker

The beaker is suitable for people with reduced sensibility or coordination. The holder is insulated and permits various grips. The supporting edge allows the beaker to be held with two hands. The large base allows the beaker to stand securely. A lid with a spout is available.

Description **Item no.**
Tasty beaker 8040 4042

Weight: 125 g
Beaker: 50 g
Holder: 60 g
Spout lid: 15 g

Capacity: 3 dl
Care: Dishwasher-safe
Will retain its shiny finish
if washed by hand.
Design: Ergonomidesign

Tasty Plate

One side of this plate is raised so that it is easy to get at the contents of the plate at the other side, while also helping you pick up your food on a fork or spoon. The underside has a rubber strip attached so that the plate stands securely. This plate is also suitable in a feeding situation.

Micro
