

Edge — a space saving shower stool

Edge is a height adjustable, comfortable triangular shower stool that fits perfectly in a corner. Thereby it takes up very little space in the shower. To vary the seat position, the stool can be turned so that a corner faces forward. The seat can also be set with a slight forward angle.

Many functions

The versatility of Edge makes it the perfect shower stool. The seat design ensures a stable and comfortable position. The possibility to turn the stool offers a variety of positions. It is also possible to set the height with a slight forward angle, to facilitate standing up.

Safety

The legs of Edge are slightly angled outward to increase the stability. Edge stands firmly on all three legs thanks to its built-in flexibility. Also the soft ferrules will always grip the floor.

Easy handling

The light weight makes Edge easy to move around in the bathroom. The design also facilitates cleaning. Edge comes flat-packed and is easy to assemble without the need for any tools. Furthermore, Edge is stackable.
