

Swift shower chair/stool

Swift is a prize-winning series of shower stools/chairs designed with functionality and simplicity in mind. It can be anything from a simple shower stool to a complete shower chair, depending on the user's needs. Swift products come flat-packed and are easy to assemble without the need for any tools.

Swift — stable on any floor

Swift has a unique design that adapts to uneven floors. In showers, where the floor slopes towards the drain, Swift stands firmly on all four legs thanks to its built-in flexibility. The soft ferrules adapt to the floor and ensure a good grip. The anti-slip pattern on the seat makes Swift extra safe. All these features contribute to ensuring the safety of the user.

When circumstances change, Swift changes

Swift is a shower chair series that adapt to different needs. If required, you can add armrests or a backrest to the basic stool. The height is easy to adjust with the telescopic legs. It can also be set one step lower at the front, to have a slightly angled seat. Swift is easy to handle, adjust, assemble, transport and clean. It is also corrosion free.

If you wish to have the recess at the rear you can simply move the backrest to the other side of the seat. Swift is available in three colours — green, grey and two models in blue.

The flat-packed Swift is easy to handle for storage, house calls or going on holiday.

Design A&E Design

reddot Swift has received the Red Dot design award.

Clean the product with a solvent-free detergent which has a pH of 6–9, or with a 70% disinfectant solution. Can be decontaminated at max. 85 °C (185 °F) if so required.

Other functional products from the Swift family

Swift commode

The Swift commode is ideal for people who require access to a toilet near the bed. The construction is stable and the armrests offer a safe grip. As with the Swift shower stool/chair series, the commode is designed with functionality and simplicity in mind. The product comes flat-packed, together with the pan and cushions.

Swift freestanding toilet seat raiser

Swift freestanding toilet seat raiser is ideal for those who need to raise the height of the existing toilet seat. As with the Swift shower stool/shower chair series, this freestanding toilet seat raiser is designed with functionality and simplicity in mind. The construction is stable and the armrests offer a safe grip.

Edge — versatile triangular shower stool

Edge is a triangular shower stool which takes up very little space in the shower cubicle. To vary the seat position the stool can be used with one corner facing forward. As with other products from the Swift family, Edge is height adjustable and it comes flat-packed. Furthermore, Edge is stackable.
